

## 1600 North — South Side / Interchange Closures

As soon as early August through mid-September, crews will return to 1600 North to complete work at the interchange. The following closures are scheduled for two phases, which will total up to 30 days:

**Phase 2 -** The south half of the interchange (the northbound off-ramp and southbound on-ramp) will close for paving and permanent ramp construction.

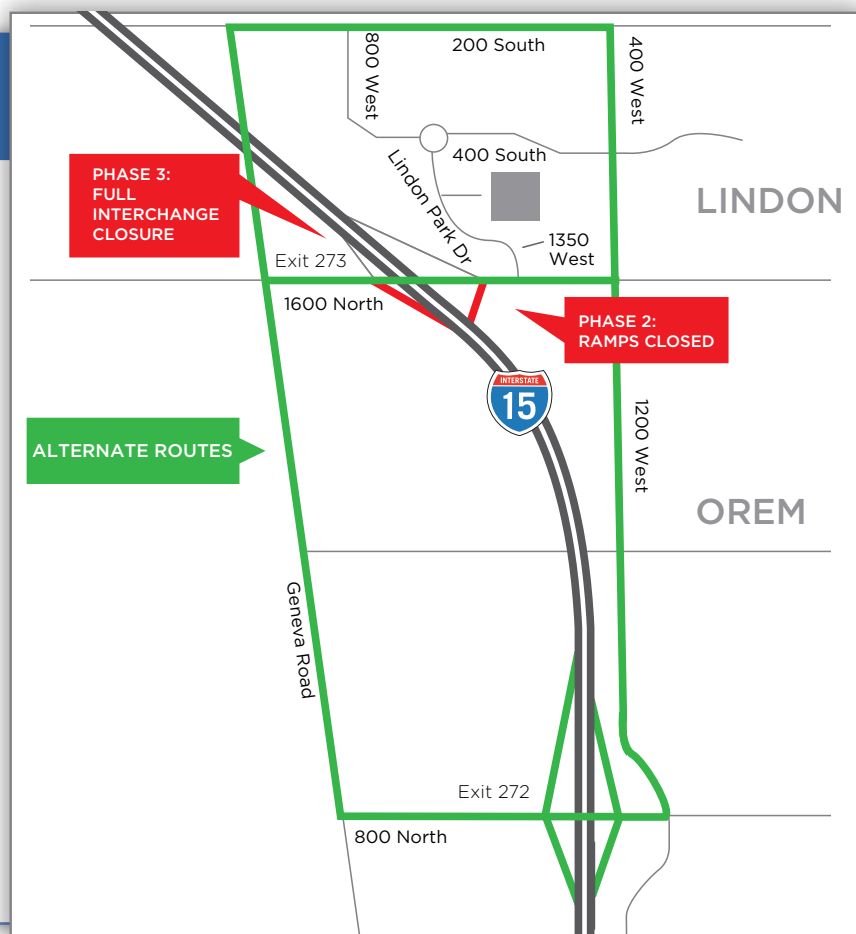

**Drivers will need to use the following alternate routes:**

**To access 1600 North from northbound I-15:**  
Use the 800 North interchange (exit 272) to Geneva Road to 1600 North

**To access southbound I-15 from 1600 North:**  
Use 1200 West or Geneva Road to access the 800 North interchange

**Phase 3 -** The entire interchange will be closed for final paving, lane marking and signal work.

**Drivers will need to use 800 North for I-15 access and east-west travel.**

## University Parkway Construction Begins Final Phase

**Pedestrian Tunnel -** As early as the end of May, a new pedestrian undercrossing east of Sandhill Road under University Parkway will be completed. The tunnel will provide a safe, well-lit route for students and residents who cross University Parkway daily.

**Continuous Flow Intersection -** In June, crews will complete a new Continuous Flow Intersection (CFI) at Sandhill Road and University Parkway. The redesigned intersection will be the first CFI in Utah County and will improve traffic flow for drivers accessing Utah Valley University and homes and businesses in the area.

To see how the CFI will function and how to navigate it, visit the Project information page on the I-15 CORE website and click on **Orem Area**.

The Utah County I-15 Corridor Expansion (I-15 CORE) has entered its final year of construction. Provo River Constructors has done a lot of work on I-15 during the past two years, but there's more to be done. Major construction items include the final reconstruction of the 1600 North, 800 North and Orem Center Street interchanges in Orem and Lindon. Beginning in mid-April and continuing through mid-September, each interchange is slated to close at different times as crews work to finish the improvements. Below are the approximate closure dates for each interchange and the number of days scheduled for each closure. The following pages identify potential alternate routes to help drivers move around the interchanges during a closure.

1600 NORTH — NORTH HALF CLOSURE	800 NORTH — FULL CLOSURE	CENTER STREET — FULL CLOSURE	1600 NORTH — SOUTH HALF CLOSURE
<ul style="list-style-type: none"> <li>One-month closure of the southbound off-ramp and the northbound on-ramp</li> <li>Lindon Parkway will be closed at 1600 North</li> <li>Alternate routes including business access will be clearly marked</li> </ul>	<ul style="list-style-type: none"> <li>Six-week closure of the entire interchange</li> <li>Alternate routes will be clearly marked</li> <li>Alternative business access points will be clearly marked</li> </ul>	<ul style="list-style-type: none"> <li>One-month closure of the entire interchange</li> <li>Alternate routes will be clearly marked</li> <li>Alternate business access points will be clearly marked</li> </ul>	<ul style="list-style-type: none"> <li>One-month closure of the northbound off-ramp and the southbound on-ramp</li> <li>Alternate routes will be clearly marked</li> <li>Business access points will be clearly marked</li> </ul>
MID-APRIL - MID-MAY	MID-MAY - JUNE	EARLY JULY - EARLY AUGUST	EARLY AUGUST - MID-SEPTEMBER

Note: All dates are subject to change.

## 1600 North — North Side Closure

Beginning as early as mid-April, the north half of the 1600 North interchange (southbound off-ramp and northbound on-ramp) and the intersection of 1600 North and Lindon Parkway are scheduled to be closed for up to one month for reconstruction.

### Drivers will need to use the following alternate routes:

**To access 1600 North from southbound I-15:**  
Use the interchange at 800 North (exit 272) to Geneva Road to 200 South in Lindon

**To access northbound I-15 from 1600 North:**  
Use 1200 West or Geneva Road to access the interchange at 800 North

**To access the Lindon Parkway business area:**  
Use 1600 North to Geneva Road to 200 South to 800 West or use adjacent local roads into the business area

*East-west travel on 1600 North will be maintained. Signs will be placed along the detour routes to guide motorists through the construction area.*

## Orem 800 North Interchange Closure

Beginning as early as mid-May, the 800 North interchange (including all ramps) is scheduled to close for up to six weeks for reconstruction.

### Drivers will need to use the following alternate routes:

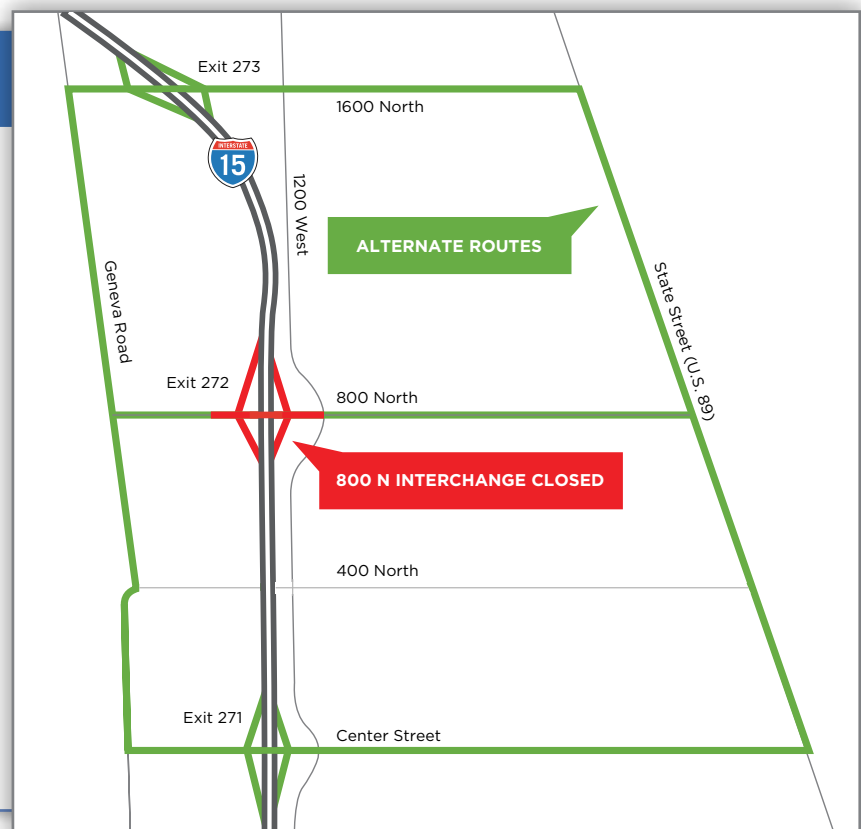

**To access 800 North from southbound I-15:**  
Use the interchange at 1600 North (exit 273) to Geneva Road to 800 North

**To access southbound I-15 from 800 North:**  
Use 1200 West or Geneva Road to access the 1600 North interchange

**To access 800 North from northbound I-15:**  
Use the interchange at Center Street (exit 271) to Geneva Road to 800 North

**To access northbound I-15 from 800 North:**  
Use 1200 West or Geneva Road to access the Center Street interchange

*East-west travel at the 800 North interchange will also be closed. Drivers will need to use 400 North, 1600 North or Orem Center Street to access areas between State Street and Geneva Road. Signs will be placed along the detour routes to guide motorists around the construction area.*

## Orem Center Street Interchange Closure

From July through early August, the Center Street interchange (including all ramps) is scheduled to close for up to one month for reconstruction.

### Drivers will need to use the following alternate routes:

**To access Center Street from southbound I-15:**  
Use the interchange at 800 North (exit 272) to Geneva Road to Center Street

**To access southbound I-15 from Center Street:**  
Use 1200 West or Geneva Road to access the interchanges at 800 North or University Parkway (exit 269)

**To access Center Street from northbound I-15:**  
Use the University Parkway Exit to Geneva Road to Center Street

**To access I-15 northbound from Center Street:**  
Use 1200 West or Geneva Road to access the interchanges at University Parkway or 800 North

*East-west travel at the Orem Center Street interchange will also be closed. Drivers can use 400 North, 800 North or 400 South to access areas between State Street and Geneva Road. Signs will be placed along the detour routes to guide motorists around the construction area.*
